🔗 My Portfolio

SKILLS

Unity

Unity Particle system, Spine integration and prefab setup, configurable C# tools that let product and animation teams tune gameplay feel. Controlling the quality and optimization of animation assets. Continually iterating and improving animations that are consistent with the overall game. Working closely with programmers to create an excellent gameplay experience.

Spine

2D & 2.5D rigging and animation with optimized mesh topology, developer-ready exports and seamless Unity integration. Solid understanding of the movement, anticipation, squash, and stretch, and other principles of animation.

Unreal Engine

Animation Blueprints, Blend Spaces, Control Rig, IK Retargeting, and Sequencer for gameplay and cinematics.

Maya & Blender

Production-ready character, creature, weapon, and vehicle rigs with IK/FK systems; gameplay and cinematic animation, mocap cleanup, and UE-compatible skeletons.

Python & MEL Scripting

Pipeline and automation tools for Maya and Unreal, auto-rigging, batch retargeting, and export workflows.

GAME EXPERIENCE

Rogue Legend 🔗, 1M+ Downloaded Mobile RPG Game 2D & 2.5D animation in Spine and Unity integration, configurable C# tools for team-side tuning.	[Freelance] Oct 2025 – Jun 2026
Apex Legends , 100M+ Player AAA Battle Royale Game Character rigging in Maya with IK/FK systems and animator-friendly control rigs.	[Freelance] Oct 2025 – Mar 2026
Rise Online World 🔗, Released PC Game Humanoid, quadruped, and creature rigs, in-game and cinematic animation, automated retargeting.	Sep 2023 – Feb 2026
V.O.L.T 🔗, Upcoming PC Game Character and weapon rigging, UE5 Animation Blueprints, Blend Spaces, and multi-rig automation tools in Python/MEL.	Jun 2024 – Feb 2026
Old War 🔗, Upcoming PC Game In-game and cinematic animation, humanoid and creature rigs, retargeting automation, and trailer editing.	Jun 2023 – Sep 2023
Reflection: The Greed 🔗, Released PC Game In-game and cinematic animation, humanoid and creature rigs, retargeting automation, and trailer editing.	Dec 2021 – Apr 2023
Slime Spy: Ninja Assassin 🔗, 100K+ Downloaded Casual Mobile Game Character and prop rigs, gameplay and intro animations, attachment rigs and sockets.	Dec 2021 – May 2022

WORK EXPERIENCE

Paxie Games, Game Animator

Creating animations that are both fluid and responsive in **Unity and Spine**. Controlling the **quality and optimization** of animation assets. Continually iterating and improving animations that are consistent with the overall game. **Working closely with programmers** to create an excellent gameplay experience Finding **creative art solutions** for the animation challenges.

Jun 2026 – Present

Istanbul, Turkey

Rokogame Studios, Technical Animator

Working as a *Technical Animator* on an *upcoming FPS hero shooter project and Rise Online World*, handling 3D character animation, complex character, weapon and skill rigging, and scripting in Autodesk Maya (Python & MEL) and Unreal Engine.

Jun 2023 – Feb 2026

Istanbul, Turkey

Warner Bros Discovery Turkey, 3D Generalist

I was responsible for animation, environment design, modeling, lighting, and visual effects in Blender for a documentary project that was later cancelled.

Feb 2022 – Feb 2023

Zonex Entertainment Studios, Technical Animator

Working as a *Technical Animator* at *Zonex Entertainment Studios*, I was responsible for 3D Animation/Rigging/Modeling for *Reflection: The Greed*, Video Editing and social media management.

Oct 2021 – May 2023

Istanbul, Turkey

Demikro Technology, Intern Animator

University internship focused on 2D and 3D animation production. Created animations across both pipelines and gained hands-on experience in a professional studio workflow.

Sep 2021 – Mar 2022

Istanbul, Turkey

Big Media & Technology, Intern Motion Designer

Video editing, motion graphics, and graphic design for LEVEL and CHIP.

Jul 2017 – Aug 2019

Istanbul, Turkey

EDUCATION

Topkapi University , Animation

Before I started university, I already knew the principles of Animation and I chose this department to meet new people from the industry. While me and a large team of 5 people were working, we created 2 computer games for our school in just 1 month per game.

AWARDS

Toprak İçin Koş , School Project

The mobile game we developed contributed to Superior Mesenteric Artery (SMA) patient Toprak's recovery process and brought excitement to his life.

Aug 2021

Bir Fidan Bir Nefes , Social Responsibility Project

The social responsibility project we implemented to raise awareness about forest fires has been an important step towards educating the community and protecting nature.
